7:45-9:00 am	Presentation by Mark Swanson
9:00-9:15 am	Morning Break
9:15-10:30 am	Presentations Jason Savage & Paul Albright
10:30-11:45am	Presentations by Ray Russo & Dave Axt
11:45-12:30 pm	Lunch
12:30-2:30 pm	Demonstrations presented by the speakers
2:30-3:00 pm	Q & A; distribution of certificates of attendance

Water-Proofing of Existing Structures

The Arizona Chapter of the ICRI is pleased to present our Spring Technical Seminar on Water Proofing of Existing Structures on March 6, 2013. This seminar will deal with a wide variety of methods for water proofing existing structures as required to remediate water infiltration problems, replace or repair existing water proofing systems and upgrading existing water proofing systems.

Topics:

The seminar will consists of three separate presentations

- Grouting on the positive and negative sides of walls and foundations as a water proofing system of existing buildings.
- Water proofing systems using crystalline and cementitious coatings applied to the positive and negative sides of walls and slabs above grade.
- Primers and coatings as replacement systems and systems that are integrated into existing water proofing systems.

Who Should Attend?

Repair Contractors –Roofing Contractors– Engineers – Architects – Specification Writers – Repair Trade Personnel and Supervisors – Owners and managers of properties and facilities–Inspectors– Consultants–Distributors

Demonstrations:

Demonstrations of the application of the water proofing products and methods will follow the presentations.

Go to our web site at WWW.AZICRI.ORG to register on-line today!

Speaker Bios

Mark Swanson

Mark Swanson, CDT, has been with CETCO since 2008 and has served in several roles ranging from project management to technical services. Mark brings a strong technical background and in-depth experience with project management. During his career, Mark has developed an expertise in waterproofing products, innovative installation and construction techniques. Additionally, Mark has played an integral role in the development, standardization and implementation of many CETCO programs, processes and new products. He designed and implemented both the CETCO Certified Inspector Program and CETCO Employee Training programs. Mark received his CDT in 2009. He holds a Bachelors of Science degree from The University of Dayton and currently resides in San Francisco, CA, serving as the Western Regional Manager for the CETCO Building Materials Group.

Ray Russo

Ray Russo is the District Sales Manager for Sika Corporation for AZ and Las Vegas. He has over 20 years of experience in assisting design professionals, owners, specialty contractors and distributors in the repair and protection of various structures that utilize Sika's wide array of highly engineered products; some of these include repair mortars, epoxy resins, structural strengthening and waterproof coatings and sealants. Ray was a former Technical Service Representative and Outside Sales Representative in Los Angeles prior to relocating to Arizona in 1995. Ray is an active board member of the AZ Chapter of I.C.R.I and also a member of the Structural Engineers Association of Arizona and CSI here in Phoenix. Ray holds a Bachelor of Science in Business Administration where he majored in Marketing from California State Polytechnic University in Pomona, CA. He is married with one son and resides in Chandler, AZ.

Dave Axt

Mr. David Axt is the Liquid Applied Membrane (LAM) Tech Field Services Manager for Sika Corporation for the past 11 years. He covers the entire US directly managing three field techs, assisting architects, engineers, consultants and contractors with liquid applied waterproofing applications, evaluating potential projects, reviewing details, conducting trainings and educational seminars on LAM waterproofing and roofing. David had 15 years of experience in specialty coatings and contracting becoming involved with LAM applications in 1996. With over 17 years of LAM experience, David is a valuable resource to both A/E/C's and contractors. Currently, David resides in Florida with his wife Cindy and enjoys football, fishing, hunting, wood working and welding.

Jason Savage

Jason Savage is the Assistant Regional Manager for Euclid Chemical Company in AZ, NM and El Paso. He received a Marketing degree from the University of Phoenix. Jason has worked for a ready mix company, flyash supplier and an industry leader in concrete admixtures and construction products. He earned his ACI Level 1 certificate in 1998 and NRMCA Level 2&3 in 1999. Jason completed the Besser Block School in Alpina, Michigan in 2004. He has given dozens of seminars on Concrete Repair, Basics of Concrete and several other topics. Jason was a presenter at the National Ready Mix Concrete Association Level 2 class in Phoenix in 2011. Jason has been a member of the Arizona ACI and ICRI board. He is the activities chair for both committee's and runs the golf tournaments. Jason resides in Phoenix, Arizona.

Paul C. Albright / Euclid Chemical Bio

Graduated in 1972 from the University of Akron and joined the industry in 1977 at Master Builders. I became the regional manager in Denver in 1982 and participated in ACI functions, including a national convention in Denver as well as, serving as treasurer for the local chapter. I was transferred to Washington DC as regional manager and participated in ACI and NRMCA functions in the area. I joined Euclid Chemical in 1991 and have been active in sales, marketing, and strategy for the past 22 years. I remain active in ASCC, ACI, ICRI and other organizations.
