

## Arizona Chapter

INTERNATIONAL  
CONCRETE REPAIR  
INSTITUTE

### Arizona ICRI Chapter Spring Seminar

May 4th, 2012

This half day seminar will be presented by the Arizona Chapter of the International Concrete Repair Institute

- Check in begins at 7:30 am
- Program runs from 8:00 - Noon
- Continental breakfast is included

#### Location

The seminar will be conducted at Alpha Geotechnical - Register early to ensure your seat.  
2504 West Southern Avenue, Tempe, AZ

#### Costs

Registration is \$150 for members, \$185 for non-members. Discounts are provided for multiple guests of the same company.

### Using Shotcrete for the Repair and Rehabilitation of Concrete

The session will describe the latest information on repair and rehabilitation of concrete infrastructure using the shotcrete method of placement. Guidelines for shotcrete applications and the efficiencies of using shotcrete will be detailed. Advantages of both dry and wet processes will be discussed. Following the presentations, representatives from Porter Construction will demonstrate both the wet and dry processes using materials provided by SIKA Corporation, BASF, and Euclid.

The presentations will be conducted by

Charles Hanskat from the American Shotcrete Association and have been approved for a total of two hours of AIA credits. Topics will include:

- Understanding of the basic process for both wet and dry mix shotcrete.
- Basic understanding of the uses and the advantages of shotcrete process.
- Understanding of the critical issues to be addressed in a shotcrete project specification.
- Identify shotcrete references / resources available geared towards the repair/rehabilitation process.
